

At THE FAIR At THE FAIR

Commencing Monday our Stores will be open until 8 o'clock p. m. till further notice

The adoption by us of special sale days has met with wonderful success the past week. From now on we shall adopt up-to-date Department Store methods and it is our aim to run this mammoth establishment on those principles. Goods in the future as advertised shall run for the specified time only, after the expiration of said time the same shall revert back to original prices and under no circumstances will we deviate from this rule.

For Monday and Tuesday we place on Sale

THEY HAVE NOT GIVEN UP YET

BISBEE WEST MAY BUILD PRO- POSED WATER SYSTEM

Supt. Dwight Says Company Will Not
Resume its Plans to Bring Water
from Mine to City Under Franchise

The Bisbee West has by no means given up its plan to give this city the water system planned several months ago, when a franchise was given the company by the city council. Since that time the Bisbee West has done nothing toward bringing the water into this city.

Superintendent Dwight said yesterday morning that he has just received word from Brader W. Lee of Los Angeles to the effect that the work of getting the company in proper shape to handle the project would now be resumed and that in a few days he will be able to give out more information about the company's intentions. "The delay in pushing the work," said Superintendent Dwight, "has been caused by the hot political campaign which has just closed in California. Mr. Lee says that he is now about through with his share in the campaign, and will turn his attention to the water scheme."

"The company has just about completed all the necessary legal arrangements that must be gotten out of the way before they can start the work as it was planned some time ago. In his letter Mr. Lee states that he is working on the last of this now and within a few days will have all the legal papers made out."

"The company has never given up its plan to give this city the kind of a water system that it needs. There has been a great deal of delay due to various causes, but none of them were in the least due to any desire on the part of the company to abandon its plan."

The Bisbee West applied to the city council for a water franchise several weeks before the Copper Queen company brought water to this city from their wells at Naco. After a great deal of discussion the city granted the franchise, which was considered very favorable to the company.

Since the franchise was granted the Bisbee West people have done practically nothing toward putting in the proposed water system, except to change the organization of their mining company in order to make the articles of incorporation cover the production of water as one of its rights.

EL PASO WANTS CRACK SHOTS

T. E. SHELTON TALKS ABOUT GUN TOURNAMENT THERE

Will Have Big Meet During Carnival
nival in January at which Big
Prizes will Be Given to Winners

T. E. Shelton, who was here yesterday from El Paso, stated that his city is going to have one of the biggest shooting tournaments during the midwinter carnival that have ever been held in the southwest. He says that the management of the shoot is depending upon Arizona to send a number of crack shots. Bisbee is expected to send a larger number than any other city in the territory. "This tournament is going to offer inducements to the crack shots," said he, "that will certainly bring a large number of them into El Paso from the outside. The prize money of \$1,000, which is to be given outside of the entrance fees, will make some of the events well worth contesting for."

"The gun club in El Paso is going to show what it can do in this line, and will spare neither pains nor expense to entertain all the outside marksmen who may be present. The shooting tournament will now be made one of the permanent fixtures of the carnival which is held each year in January. The gun tournaments in the southwest are becoming more popular all the time, and El Paso does not intend to be behind the cities of Arizona, which annually hold successful shoots."

"By writing to the El Paso Gun club any of the shooters in Bisbee who may want to attend the tournament, can get all the information they may want regarding the rules that will govern the different events. We are anxious to have as many come as possible, and will not be slow to show them every courtesy possible."
